INTERNATIONAL SEARCH REPORT

Box No. II

reasons:

nternational application No. PCT/CA2005/000935

H	Box This			Observations where unity of invention is lacking (Continuation of item 3 of first sheet) national Searching Authority found multiple inventions in this international application, as follows:
	3.	[J	Claim Nos.: because they are dependant claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
	2.	[]	Claim Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
	1.	[2	x.j	Claim Nos.: 17-26 because they relate to subject matter not required to be searched by this Authority, namely: No meaningful search could be performed on a memory for storing a data structure comprising a data element, a data block and an assertion (Rule 67). Any schema or structure for storing various digital data elements in data blocks in memory (understood as a database record) for searching and retrieval of said data elements is common practice in digital storage and data retrieval systems.
1	1	rx	רע	Claim No. 4 17 26

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following

Observations where certain claims were found unsearchable (Continuation of item 2 of the first sheet)

The International Search Authority found multiple inventions claimed in this international application, as follows:				
Group I, claims 1-16 and 27-34, drawn to a method and apparatus for exchanging and managing user identity information.				
Group II, claims 17-26, drawn to a memory for storing a data structure.				
. [] As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.				
. [X] As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees.				
. [] As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claim Nos. :				
. [] No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claim Nos.:				
Remark on Protest [] The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.				
[] The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.				
[] No protest accompanied the payment of additional search fees.
